Each 6-week session costs
\$515 per participant.

This program occurs over six sessions in a therapeutic playroom. Participants have the support of a child-focused professional who will assist the child to:

- Think about positive experiences that they have had with their birth families and/or substitute families
- Investigate where they were born and the important people who have been in their lives
- Gain an understanding of the factors that precipitated them to live in foster care, kinship care or guardianship care

Life books will include words, photos, the child's artwork, and memorabilia that is important to the child.
