

Branching Out is a multi-faceted service which offers a variety of enhanced therapeutic services, such as group and individual therapy, to meet the needs of youth and their families.

SIBLING RETREATS

The best thing about having a Sibling is that you always have a friend!

There are times when natural siblings cannot be placed together. When brothers and sisters do not see each other everyday, this loss can be quite significant to each child's treatment process and life script.

To honour the importance of this relationship, Branching Out is providing a 3-day/2-night sibling retreat.

There are both structured and non-structured activities to provide the sibling groups with self-esteem and family-building opportunities. A Play Therapist and other Clinical Staff are available to help children discuss any feelings of loss that arise.

Each participant will receive a commemorative scrapbook.
