Assessment cost varies between \$1,000-\$2000 based on number of appointments required.

When a traumatic event occurs in a child's life, a lot of fear and regret can be held inside. A Trauma Assessment can help to understand the child or teen's view of their experience and follow-up with treatment, if necessary.

Once the assessment has been complete, the Assessor will utilize standardized assessment activities over at least six appointments. The process of healing can then begin.

A report and Case Conference involving members of the Child's Treatment Team will be scheduled after the child or teen's assessment process has been completed.

It is important to note that a Trauma Assessment can only be completed when the Criminal Court Process has been completed and the perpetrator has been found guilty.
